Profile for Member Director

Federal Home Loan Bank of San Francisco Overview

The Federal Home Loan Bank of San Francisco (Bank), a federally chartered corporation, is one of 11 regional Federal Home Loan Banks (FHLBanks). The Bank covers the territory of Arizona, California, and Nevada, known as the Eleventh District.

The FHLBanks were organized under the Federal Home Loan Bank Act of 1932 and are government-sponsored enterprises. Each FHLBank operates as a separate corporation with its own board of directors, management, and employees. The FHLBanks are not government agencies and do not receive financial support from taxpayers. The Bank is privately owned and operates with a cooperative ownership structure. Its mission is to enable families and individuals of all income levels to obtain quality housing and become homeowners by providing wholesale products and services that help member financial institutions expand the availability of mortgage credit, compete more effectively in their markets, and foster strong and vibrant communities through community and economic development. More information is available at www.fhlbsf.com.

To access the Bank's products and services, a financial institution must be approved for membership and purchase capital stock in the Bank. The Bank's approximately 334 members include commercial banks, credit unions, industrial loan companies, savings institutions, insurance companies, and community development financial institutions headquartered in Arizona, California, and Nevada. Although the Bank is not publicly traded, it is registered with the SEC and publicly reports its financial results.

The FHLBanks are regulated by the Federal Housing Finance Agency (Finance Agency). To fund operations, the FHLBanks issue debt through the FHLBanks' Office of Finance, their fiscal agent for issuing and servicing consolidated obligations, which are rated Aaa/P-1 by Moody's and AA+/A-1+ by Standard & Poor's Rating Services.

As of March 31, 2024, the Bank had approximately \$88.0 billion in assets and outstanding loans (advances) of approximately \$56.9 billion.
